**Trailnet Board Recommends Strategic Use of Funding**

**St. Louis, MO** – The Board of Directors of Trailnet support the following statement:

The Trailnet Board [commends](#) Mayor Tishaura Jones for [proposing](#) that the City commit \$40 million to a comprehensive, city-wide street plan. We recommend the Board of Estimate and Apportionment and the Board of Aldermen pass this much-needed legislation with the provision that a portion of those funds be spent on a [Vision Zero Action Plan](#) and a media campaign to encourage responsible driving.

We also call on other organizations and individuals to get behind both initiatives and send letters and emails to the Board of Estimate and Apportionment and the Board of Aldermen. Together, we may make our streets safer for all.

Trailnet is the St. Louis region's nonprofit walking, biking and public transit advocacy organization. Learn more at [trailnet.org](http://trailnet.org).
